

Our Company

More than 50 years of experience with national and international large-scale projects has made PWT one of the leading general contractors for the design, construction and operation of drinking water, wastewater and industrial water treatment plants. With our interdisciplinary team of experts, we cover all areas of plant construction and thus guarantee comprehensive competence.

For our headquarter **Zwingenberg an der Bergstraße** (region Darmstadt/Mannheim) we are looking - as soon as possible - for a:

Project Manager International – Water Infrastructure (m/f/d) **(wastewater, drinking water, process water and related networks)** full-time employment

Your responsibilities

- Lead a multidisciplinary team of international engineers and experts in all project phases (design, construction, commissioning)
- Representing the Contractor towards the Employer, the financing institution and external partners (consortium/sub-contractors)
- Presenting design works to the Client
- Monitoring and control of quality, time and costs in project execution
- Subcontracting works and supervising sub-contractors for mechanical, electrical and construction works
- Reporting the project status to the Client and the management of the Company in Germany in English language

Your profile

- Master Degree Engineering (Civil/Mechanical/Process/Environmental)
- At least five years of profound experience in similar position, ten years in total
- Project Management Skills (time scheduling, claim and contract management)
- Language Skills: English good; French and Russian where applicable related to project locations
- Willingness to travel worldwide (Project locations: North Africa, Eastern Europe, Middle East, Central-Asia)
- Main workplace to be agreed: Headquarter in Zwingenberg, Germany or home office

Our offer

We offer you the advantages of a successful medium-sized company with a pleasant working atmosphere and a flat hierarchy. We cultivate open communication and focus on real teamwork. With us, you have the opportunity to work independently with plenty of space to create your area of responsibility. We provide you with free drinks and use a flexible working time model for time recording. We offer you excellent perspectives for your individual professional and personal development.

We are looking forward to your application!

Please send us your application **with your salary expectations and possible starting date** (preferably by e-mail with PDF attachment of max. 10MB):
