

OUR COMPANY

More than 50 years of experience with national and international large-scale projects have made PWT one of the leading general contractors for the design, construction and operation of drinking water, waste water and industrial water treatment plants. With our interdisciplinary team of experts, we cover all areas of plant engineering and thus guarantee comprehensive competence.

For our headquarter Zwingenberg on Bergstraße (Darmstadt/Mannheim region) in Germany we are looking as soon as possible for:

Project manager for plant engineering (m/f/d) (process water, drinking water, waste water)

full-time to permanent position

Would you like to work in a company with flat hierarchies and enjoy challenges and working independently? Then join our team.

We cultivate good teamwork and are looking for another member for our "PWT family".

Your area of responsibility

- Management of the interdisciplinary project team in the various project phases (planning, realisation and commissioning)
- Representation of the company towards customers, engineering offices, other trades and external partners
- Cooperation and coordination with the specialist areas of process engineering, mechanical engineering, civil engineering, electrical engineering, automation and CAE/CAD, assumption of planning tasks for smaller projects
- Project monitoring with regard to quality, time and costs
- Reporting to business and divisional management

Your profile

- You have completed a degree in process engineering, environmental engineering, chemical engineering, civil engineering or have a comparable qualification
- More than 5 years of professional experience in project management of complex plant engineering projects, ideally in water technology
- Experience in dealing with customers and experience in team management
- Good English skills, other language skills would be an advantage
- Willingness to travel at home and abroad

In addition to your professional qualifications, we are looking for the following from you:

- You enjoy working in a team and yet have an independent, well-planned and structured way of working
- You have an open-minded, positive and friendly personality
- You are committed and willing to stay longer if necessary
- You take responsibility for your area of work
- You contribute yourself and your ideas into the company
- Reliability, assertiveness as well as fun and enjoyment in dealing with people round off your profile.

Our offer

- We offer you the advantages of a successful medium-sized company with a pleasant working atmosphere and a flat hierarchy
- We have an open, respectful communication and rely on genuine teamwork, also interdivisional
- Weekly team meetings
- Flexible working hours / trust-based working hours with a time account and opportunities for mobile working
- We offer further and advanced training programs for your individual professional and personal development
- Employee car park
- After the probationary period, you have the option of leasing a job bike

We are a great community and if you would like to become part of our "PWT family", then apply now.

Please send your application stating your salary expectations and possible starting date to (preferably by e-mail with a PDF attachment of max. 10MB):
